# Pavan Kyada
**Full Stack Developer**

+91 9157271604   -   kyadapavan0016@gmail.com   -   Github   -   Linkedin   -   Portfolio

## Summary

Proficient in FrontEnd and Backend development, Committed to utilizing these technologies to deliver innovative and high-quality solutions that meet user needs and business goals.

## Technical Skills

**Languages:**  HTML5, CSS, JavaScript, Typescript, C#

**Libraries & Frameworks:** React, Redux, NextJS 13, Node.Js, ExpressJS, TailwindCSS, BootStrap, Uncertainty UI, Shadcn UI, Framer-motion

**Database:** MongoDB, Postgress

**Tools/Technologies:** Git, GitHub, Postman, Figma, NPM/Yarn, Vite

**Hosting/Cloud:**  Vercel, Netlify, GitHub Pages, Railway

## Experience

**FrontEnd Developer**  CodeWay Solutions                                                                        **Remote**  *Mar'24*

- Designed an e-commerce platform that resulted in a 15% increase in footfalls.
- Enhanced React.js proficiency by **developing 20+ reusable components** and implementing complex routing techniques, leading to improved code maintainability and **reducing development time by 20%.**

**Full Stack Developer**  BrainyBeam Info.tech                                                                    **Remote**  *May'24*

- Spearheaded the creation of a feature-rich **food product application** using the MERN Stack.
- **Forged core functionalities** including **user authentication** seamless **shopping cart management** (add/remove items), and **wishlist** integration
- **Enhanced UI design** following best UI/UX practices, improving overall user experience.

## Projects

**FramePhase** *Live Github*                                                                                    *Feb'24 - Mar'24*

- **Engineered FramePhase**, a cutting-edge captions generator app utilizing Next.js 13 and AWS
- **Streamlined content creation** with **automated transcription**, revolutionizing the process.
- **Boosted user engagement by 25%** through **customizable options** and **enhanced accessibility**, empowering creators worldwide.
- Tech Stack: Next.js 13, TailwindCSS, WebAssembly, AWS S3 Bucket, AWS Transcribe, Figma

**DevLink** *Live Github*                                                                                        *Apr'24*

- Designed a **collaborative platform** enabling **developers** to **create and join rooms** for knowledge sharing, collaboration, and joint project work.
- Strengthened developers with **seamless collaboration tools** in DevLink, including **room browsing, video calls, screen sharing**, fostering a supportive and connected community.
- Tech Stack: NextJS 13, TypeScript, TailwindCSS, NextAuth, Postgre SQl, GetStream.io

**WhisperBox** *Github*                                                                                          *Dec'23*

- Whisper Box is an **anonymous feedback platform** designed to allow users to gather candid insights **without compromising** the **identity** of the **respondents.**
- By ensuring complete anonymity, the platform promotes **honest and constructive feedback,** encouraging open and truthful communication. reframe it
- Tech Stack: Nextjs 13, TypeScript, Tailwind CSS, Shadcn UI, Next Auth, MongoDB

## Education

**A.D. Patel Institute of Technology**                                                                          **Anand, Gujrat**  *2021-2025*

B.Tech in Information Technology (7.94 CGPA)
